

# Integration

Assign our digital activities through Google Classroom! **SmartClass Integration** is a simplified version of our original Teaching Platform and curricula. It offers teachers a quick and easy way to assign interactive and engaging language learning activities directly through Google Classroom.

## SmartClass Integration includes:

- Structured curricula for English, German, and Spanish
- Automated transfer of classes and students from Google Classroom
- 50% auto-graded activities
- Focus on speaking and listening activities for your students (in class or at home)

## What sets our course content apart?

AI-based pronunciation activities and lots of speaking practice for every student!

Give your students more speaking practice and prepare them for future proficiency tests with SmartClass Integration.
