Empower Multilingual Learners

Transform your classroom with SmartClass—where every learner thrives and can unlock their true potential!

SmartClass brings an interactive, engaging, and student-centered approach to English language acquisition. The digital SmartClass Newcomer/ML Curriculum adapts seamlessly to any teaching style, putting students at the heart of their learning experience and improving all four language domains.

The SmartClass Curriculum Overview

SmartClass hones in on the unique linguistic needs of newcomers and all multilingual learners at all proficiency levels.

With over 3,000 engaging activities spanning from beginner to advanced, you'll have all the tools you need to ignite inspiration and drive learning.

“SmartClass offers a range of interesting features that make classroom learning more dynamic.”

-Deborah Daval, ESL Teacher

Curriculum Scope

- **Aligned with WIDA standards:** Our curriculum empowers ML teachers to align instruction with WIDA guidelines, supporting multilingual learners as they progress through the WIDA English Language Proficiency Levels, Language Expectations, and Key Language Uses to develop essential language skills effectively.
- **Flexibility:** Download our English curriculum in full or filter and select specific activities to enrich your daily lessons.
- **Track and measure growth:** Teachers can easily monitor student performance and growth over time.
- **Auto-graded activities:** 50% of activities provide immediate feedback to students.
- **Structured levels:** Five complete proficiency levels, aligned to WIDA, ensure a smooth progression from foundational receptive and productive skills to advanced receptive and productive skills.
- **Diverse tasks:** Conversation practice, authentic videos, grammar reviews, and 20 different activity options.
- **Student-centered learning:** Redo activities enable students to practice at their own pace and take ownership of their learning.
- **Teacher input:** Teachers can customize existing activities or create their own, digitizing and organizing original instructional content across all four language domains to meet specific learning needs.
